

Join Intel for a Panel Discussion, Pizza and Tech Talk

Presented by Dr. Jack Hwang
Logic Technology Development Group

Intel is seeking candidates for Process/Integration Positions (Bs, MS and PhD):

- Electrical Engineering
- Computer Engineering
- Physics
- Materials
- Chemical Engineering
- Chemistry
- Mechanical Engineering
- Optics

Join Dr. Jack Hwang from the Intel Corporation for an information session. He will discuss Intel's development of silicon process technology from an engineering perspective – the importance of Moore's Law. To succeed in a changing industry, Intel is dedicated to continue its investment in inventing and developing new technologies - through the application of novel materials and creative process strategies.

Date: September 19th, 2017
Time: 5:30 pm-7:00
Location: Travis Room HUC 2.202

Jack Hwang, joined Intel in 1994 after receiving his MS and PhD in Chemical engineering from Caltech. He is an engineering Group Leader in the PTD organization.
