

ENGINEERING INTERNSHIP INFORMATION SESSION

We're looking for motivated self-starters with an eye for the details to join our Engineering Team! You must love the discovery of new and creative ideas, crave new challenges and have the desire to jump-start your career with an industry-leading company.

What we have to offer:

FLEXIBILITY! OPPORTUNITY! INCOME! VOLUNTEER HOURS! KNOWLEDGE! EXPERIENCE! VISION! NETWORK! GROWTH! SUPPORT! & MORE!

What we are looking for in prospective interns:

- Actively pursuing a Bachelor of Science (BS) degree in Mechanical, Electrical or Controls Engineering from accredited engineering program, or related engineering degree;
- Effective oral and written communication skills with the ability to clearly communicate complex ideas and concepts to those with less technical background;
- Ability to interact with personnel at all levels of the organization and serve as a liaison for craft and management personnel;
- Demonstrate ability to work with minimum supervision, be a self-starter, and be able to meet goals and deadlines with minimum supervision;
- Ability to distinguish colors to determine severity of equipment conditions or changes in operating processes;
- Knowledgeable and supportive of all safety and environmental rules, policies, and procedures;
- Ability to work safely at heights, in confined spaces, around electrical facilities, in extreme temperature ranges, and in adverse temperature conditions;
- Ability to work at any CPS Energy power plant location within Bexar County (San Antonio, TX) or Guadalupe County (Seguin, TX) as directed;
- Ability to prioritize and handle multiple tasks and projects, and to use technical skills to focus ideas onto small scale projects;
- Effective problem solving and decision making skills to make clear and precise decisions;
- Knowledge in diverse technologies/computer skills.
