

NIH Grantsmanship Series

NIH “R” Applications – a Roadmap

October 3 (Wednesday)

10am—12pm

Main, JPL 4.04.12D—Sm Conf Rm

Presenter: **Karen Potvin Klein, PhD**

This session will focus on the most common types of NIH R applications – the R03, the R21, and the R01. We will discuss their respective purposes, how to decide which one might be right for your project, and tips for optimal organization and presentation of data in each type. Guidance on resources for further research also will be provided.

Positioning Yourself for Success with NIH

October 4 (Thursday)

2pm—4pm

Main, JPL 4.04.12C—Lg Conf Rm

Presenter: **Karen Potvin Klein, PhD**

What does it take to write a competitive NIH application? Although common sense is a good guide, key strategic elements are also important to consider. We will discuss do's and don'ts, with some examples of each and tips to incorporate into current or future proposals.
