

Dear Faculty, the resources listed in these slides (with accompanying hyperlinks)—viz., Research FAQ, Research Handbook, and College (Supplemental Wix) Research Resource site—are works in development. I ask everyone to please point out (by emailing [me](#)) when you find problems, outdated info, or errors. None of these is 100% done, mostly because the research landscape is a moving target at UTSA and in COEHD right now—exciting, getting stronger, but somewhat fluid. So we apologize for errors and omissions. We just felt that sharing incomplete information to faculty is better than no info (waiting for the dust to settle). So thank you in advance for both understanding and for helping us find and correct errors in these resources. Sincerely, your Research Team, Michael, Emily, Iwan, and Raitza 1/28/21

Academic Analytics in the [Research Portal](#)

The screenshot shows the 'Academic Analytics' section of the UTSA Research Portal. It features two main columns. The left column, titled 'Benchmarking, Research Insight & Discovery Site', contains a list of questions with expandable icons: 'What is the data coverage in Academic Analytics?', 'What is Benchmarking? How can I use it?', 'What is Research Insight?', 'What is Discovery Site?', 'Can I gauge Graduate Outcomes?', and 'Can I create "what if" scenarios in it?'. Below this list are two red buttons: 'Benchmarking & Research Insight' and 'Discovery Site'. The right column, titled 'Faculty Insight', contains text describing the tool's purpose: 'Faculty Insight empowers users to uncover public and private funding opportunities and potential collaborators that span discipline, campus location, and academic age, providing faculty with...'. It includes a '[more]' link and a 'Notification Setup Guide' link. At the bottom of this column is a red button labeled 'Faculty Insight'.
