

FOR DOCTORAL STUDENTS

EDL 7783 - Special Problems

Course Title: Organizational Contexts: Critical Frameworks, Structures, and Growth

Content: Organizational Contexts: Critical Frameworks, Structures, and Growth targets salient institutional frameworks and their constituencies, and exposes the students to the importance of growth environments fostered through human mechanisms. Issues of diversity, demographics, and connecting proven theoretical frameworks affecting organizational institutions to administrative practice are emphasized. Each framework draws attention to significant aspects of the organizing process and provides a distinctive means of understanding and managing the elements of organizational situations from the leader's vantage.

Supervising Professor: Dr. Page Smith

Term: Spring 2020

Location: UTSA Downtown Campus

Schedule: Thursdays, 6:00 pm - 8:45 pm

Offered as a COEHD Doctoral Cognate Class
