

THE ART OF TEACHING AT THE UNIVERSITY LEVEL

- January 31, 2018
- 12:30-1:30pm
- Graduate Student Professional Development Center (GSR 1.204)

Are you thinking about interesting ways that you can connect with your students more? Effectively teaching students at the university level is both a skill and an art. In this session you will learn about a variety of teaching strategies that you can use to engage your students at high levels. This interactive session will give you the opportunity to share ideas and see strategies in action.

Join **Dr. Timothy Yuen** as he facilitates this important session for teaching assistants and graduate students interested in learning more about university-level teaching.

Timothy T. Yuen, Ph.D. is an Associate Professor of Instructional Technology in the Department of Interdisciplinary Learning and Teaching. His research investigates how learning technologies that facilitate learning and engagement in computer science and engineering, increasing minority participation in STEM, and transformative teaching practices in undergraduate engineering education.
