

THE U.N. SUSTAINABLE DEVELOPMENT GOALS (SDGs):

A Bridge to Internationalization of the American Education System

Free Virtual Lecture

DESCRIPTION

Education 2030 (United Nations, 2015) has been reshaping perspectives in many fronts including education programs across the globe. A major impact can be seen in many countries that have adopted the United Nations' Sustainable Development Goals (SDGs) as part of their social and education reforms and initiatives. Drawing upon the premise and promise of the SDGs, this session provides implications for internalizing education in K-20 schools.
