

Dear Science Fair Supporter,

We are working hard at Twain Dual Language Academy to have a successful science fair this school year. We are hoping that you will be able to contribute a small amount of your time to help make this experience more meaningful for all participating students. Our students appreciate it when their hard work can be shared with members of the community such as you. It is meaningful for them to present their project to their teacher and classmates, but presenting their project to experts outside their school provides new insights for the work they have done.

Twain Dual Language Academy will be conducting our science fair on **December 12th, 2023**. We would greatly appreciate it if you could support our school and students by volunteering your time as a judge of the science fair projects. As a judge, you would use your expertise in determining how well our students demonstrate their science learning while using the scientific method.

Mark Twain Dual Language Academy highly appreciates your time and support. If you are unable to attend or would like to invite a colleague please let Ms. Monserrat Alvarez, Twain's 5th grade teacher, know so that person can be appropriately welcomed.

Please complete this [Google Form](#) ASAP so we can be prepared to welcome you on the day and time that better works for your schedule. You are also welcome to send your response via email to Ms. Alvarez at malvarez14@saisd.net . When emailing, please add your name, contact information where you can be reached.

Thank you in advance.
