Limited space available.

ABOUT I-CORPS AND TVC

NSF Innovation Corps (I-Corps) enables teams of scientists, researchers and engineers to explore the commercial potential of their research or innovation. By learning how to assess commercialization opportunities, teams gain a better understanding of their market, customers, competitors and industry. TVC pairs UT ventures with a team of experienced volunteer mentors with applicable real-world experience. For more information on this event: <http://research.utsa.edu/event/icorpsl2018/>

Special Guests: Max Green & Alejandro Tortoriello
