

USING TECHNOLOGY TO ENGAGE STUDENTS IN THE UNIVERSITY CLASSROOM

- Thursday, February 15, 2018
- 12:30-1:30pm
- Graduate Student Professional Development Center Computer Lab (GSR 1.218)

Interested in using technological tools to enhance student engagement? Join us for an exciting teaching and learning session where faculty members will share their expertise in using technology effectively in the university classroom. Strategies on maximizing Blackboard Learn, using audio/video conferencing, and other technology tools for fostering student engagement will be demonstrated.

Join **Dr. M. Sidury Christiansen** as she facilitates this important session for teaching assistants and graduate students interested in learning more about integrating technology into their teaching repertoire.

Martha Sidury Christiansen, Ph.D. is an Assistant Professor in the Bicultural-Bilingual Studies Department at UTSA and a former Fulbright Scholar. She specializes in the research and teaching of sociolinguistics and digital literacies among bilinguals and English language learners. Dr. Christiansen has taught numerous online and hybrid courses, and promotes technology for the enhancement of teaching and learning.
