

Fulbright Austria offers grants for **US citizens to study, research, and teach in Austria.**

In addition to our core funding from the governments of Austria and the US, we finance our grants through partnerships with institutions on both sides of the Atlantic and through generous donations made by our community of alums.

The combined efforts of all these stakeholders sustain the ongoing success of Fulbright Austria's programs for students, scholars, and teaching assistants.

FULBRIGHT AWARDS CHANGE LIVES AND ENHANCE CAREERS.
